

2021 Manitoba Report

Although we are still in covid lockdowns we found 2021 to have a little bit of relief and normalcy by mid summer. Some shows were held, with restriction in place and very few spectators allowed but at least we got to start going out again Yah!

It was very disappointing for our AGM as we tried to do a Zoom meeting and would hope that more people would be involved, especially since there was no time lost due to traveling. I have noticed that since Covid there seems to be a few small breeders lurking around, since no showing they are trying other things. But, unfortunately we had to cancel the meeting due to lack of participants.

We had a very busy Stallion and Mare inspection with quite a few spectators showing up which was a lovely surprise. Our date of October 3 2021 turned out to be a fantastic day with the weather cooperating.

The stallion inspection went very well with the result of two lovely new Licensed Stallions in Manitoba
