

Avery Caine

My name is Avery Caine, I am a 17 year old from Rockwood, Ontario. I am currently finishing up grade 12 and will be heading off to Hartpury University (located in the UK) to study Equine Performance and Rehabilitation in September. My family owns CJ Equestrian Centre so I have had the opportunity to ride ever since I could walk. I currently own 3 of my own horses and compete in show jumping however I continue to train in dressage and eventing.

I first got involved with Canadian Warmblood when I attended an equi-tots clinic back in December of 2021 with my young Thoroughbred, Calypso, where we practiced presenting a horse in hand. This piqued my interest in bringing the young horses we are breeding on our farm to the inspection process. When I found out that they were looking for young breeders, I knew that it would be a great experience. My goal has always been to make myself the most well rounded equestrian I can be. I am grateful to have the opportunity to be a part of this team and I cannot wait to work alongside my teammates and represent Canada in the Netherlands!
