

My name is Avery Caine and I am a 21 year old from Rockwood, Ontario. I am currently in my fourth year at Hartpury University (located in the UK) studying a BSc (Hons) in Equine Performance and Rehabilitation. I am grateful to have had the opportunity of growing up on our family farm, CJ Equestrian Centre, and have gained valuable experience handling and riding young off the track thoroughbreds, competition horses and everything in between. My knowledge in the equine industry grows everywhere I go and last year I completed an 8 month working student position in the Netherlands for a 4* eventer. During this time, I attended KWPN stallion inspections and many free jumping competitions with the youngstock. I am currently based at University with my 7 year old Thoroughbred, Calypso, who I am retraining, and have begun eventing at the .90cm level.

My involvement with Canadian Warmblood began at a handling clinic in 2021, which sparked my interest in the breeding side of the industry. This led to the opportunity to represent Canada at the IYB World Championships in the Netherlands in 2022 and in Denmark in 2024 as a junior. I am extremely grateful for the opportunity to be part of the 2026 Senior Team and am very much looking forward to working alongside my teammates while proudly representing Canada in Germany!
