

Rielle Longtin

Hi! My name is Rielle Longtin, I am currently a grade 12 student at Kindersley Composite school. I am going into Animal Science at the University of Saskatchewan in the fall and plan to take that into Veterinary Medicine in the future. I live on a farm North of Kindersley, Saskatchewan where we breed, board, and train horses as well as provide riding lessons. Our barn's name is Merrington Warmbloods Stable, and it is run by my mom, Lisa. She taught me how to ride when I was 3 years old and has been coaching me ever since. I mainly ride dressage with some jumping and eventing; I also ride western occasionally, as I have recently gotten interested in it. In recent years Lisa has also gotten me more active with the Canadian Warmbloods by partaking in breeding shows. In these I help prep horses for mare inspections, present them on the triangle, and I have shadow judged. In 2024 I traveled with the CWHBA as an educational opportunity to Stutteri Ask in Denmark for the IYB championships. I look forward to representing Canada this year during the IYB in Germany!
