

I am Katelyn Mullin, a second-year student at Trent University. I am 19 years old and will be competing on the Jr. Team for my second time. I was born and raised in Fergus Ontario, Canada. My drive and passion for horses have been on going from a young age and through my riding experience I have been able to form many friendships within the horse community. CJ Equestrian centre, a competitive lesson/training/breeding and rehab stable has expanded my knowledge of horse behaviour, riding abilities and overall, the health of horses. This stable has allowed me to build strong foundations in my riding capabilities and how to apply these skills to other equestrian disciplines such as eventing, show jumping, and dressage. From riding at this facility for many years, I have learned how important it is to pay attention to detail when it comes to horse health and a variety of disciplines. I have learned how maturity and professionalism in a sport are of utmost importance when working with clients and their horses.

As a rider, I am constantly looking to improve my riding capabilities and working towards forming a solid partnership with a variety of horses. I love horses with all my heart, and I am forever grateful for all of the knowledge and experience I have gained from spending time with them. Along with time at the barn when I am home from school, I am a full-time University student pursuing a dual degree in French and English studies with a specialization in the Teacher Education Stream.

In the winter months, I am a part-time ski coach of the U12 Race Team at Mansfield Ski Club. Being a coach has taught me how to work in group/ team environments, how important it is to have positive energy and the importance of learning from your peers and those around you. From observing horse shows and clinics, I believe that my knowledge about breed inspections and the triangle pattern will only grow further with practice and experience. I believe that my own horse experience, stable skills, quick learning, and enthusiasm would allow me to be successful at the IYB International Championships.
